

Egyptian's Topics (CardioEgypt2009)

Name	Category	Presentation
Abdallah Abou Hashem	ECHO -1: Interactive Clinical Echocardiography : ICE session	Case 1
Abdel Fattah Ferrer	Hypertension -2: Controversies in Hypertension	"Contra": Debate I: hyperaldosteronism, should we check on it in all hypertensive patients
Abdel Moneim Ibrahim	Basic science for clinicians: Biomarkers in heart failure	Inflammation and oxidative stress
Abdel Rahman Sharaf	Hypertension-3: Renin – Angiotensin – Aldosterone System: Past, Present & Future	Aldosterone in hypertension and metabolic syndrome
Adel Allam	Integrated imaging -9	Going to ICNC 9; Barcelona. What is coming from Egypt?
Adel El Etriby	Debate in interventional cardiology -4	Debate III: Duration Of Dual Antiplatelet Therapy After Des: "Position statement: I recommend indefinite (> 1 year) dual antiplatelet therapy in most patients after DES"
Adel El Gamal	Congenital Heart Disease-7: Pediatric Cardiac Surgery	End to end anastomosis is it the ideal for repair of coarctation in babies
Adel Khattab	Chest physicians meet the cardiologists -2	Cardiovascular profile of B.A.

Name	Category	Presentation
Adel Zaki	Debate in interventional cardiology-4	"Pro": Debate II: DES VS DES: Are there meaningful differences
Ahmed Abdel Aaty	Integrated imaging -6: Cardiac Imaging in EPS Lab	Cardiac Sympathetic activity pre and post Resynchroization Imaging
Ahmed Abdel Latif Ramadan	Special topics-4: Big ticket topics	Expert consensus document of reducing gastrointestinal risk of antiplatelet therapy & NSAID use
Ahmed Abdel Moneim	Heart failure -3	Coenzyme Q 10: An independent predictor of mortality in heart failure
Ahmed Abdel Rahman	Special topics -2: Big ticket topics	Aortic atherosclerosis, hypercoagulability of stroke
Ahmed Khashaba	Integrated imaging -10: Cardiac CT cases	Case 4
Ahmed Khashaba	Ischemic heart disease -2: Chest pain in the emergency room: challenges & solutions	The use of biomarkers
Ahmed Magdy	Ischemic heart disease-4: The dark side of reperfusion	Reperfusion injury: Impact on function of metabolism
Ahmed Mowafy	My best case -1: My worst complication	Case 1
Ahmed Nassar	Debate in interventional cardiology-2: stable anging & diabetes: challenges for interventionists	"Contra": Debate I: It takes courage to dilate an asymptomatic lesion
Ahmed Shafiea Ammar	Thrombosis -1: Antithrombotic treatment in difficult clinical seminars	Antithrombotic treatment at the time of bypass surgery
Ahmed Zaghloul	Special topics-4: Big ticket topics	Pharmacogenomics and cardiovascular disease
Alaa Roshdi	Congenital heart disease-6: Imaging in Pediatric Cardiology	PVR by Echo: Do we still need cath

Name	Category	Presentation
Aly Youssef	Endovascular -4	Radial approach for peripheral intervention.
Aly Zidan	Hypertension -1: Controversies in Hypertension	"Contra": Debate II: Should we give statins to all hypertensives?
Alyaa Abdel Fattah	Integrated imaging -4: Noninvasive Imaging in Acute Chest pain	Nuclear cardiac imaging in ACS.
Alyaa Kotby	Congenital Heart Disease-8: Up to the Minute	Rheumatic Fever in Egypt: Where we are and where we should be.
Amany Serag	ECHO -1: Interactive Clinical Echocardiography: ICE session	Case 4
Amr Gad	Endovascular -1	Aortic endograft for abdominal arterial aneurysm
Amr Hassan Mostafa	Debate in interventional cardiology-1: Major des controversy	"contra": Debate II: DES VS CABG in complex coronary disease
Amr Zaki	Debate in interventional cardiology-1: Major des controversy	"Contra": Debate I: DES VS BMS in every day clinical practice
Anwar El Etriby	Endovascular -3: Neurovascular Carotid Session	In depth analysis of data supply: "Medical therapy"
Ashraf Hatem	Chest physicians meet the cardiologists -1	Use of CPAP in heart failure
Ashraf Reda	Special topics-3: Big ticket topics: The diabetologists meet the cardiologists.	What can we add to statins to further improve overall risk reduction?
Ashraf Reda	Atherosclerosis-1	Egyptian RF profile
Atef El Bahary	Basic science for clinicians: Biomarkers in heart failure	Myocyte stress
Ayman El Saeid	Special topics-4: Big ticket topics	Air pollution and cardiovascular imaging
Ayman Saleh	Endovascular -1	Acute aortic syndrome
Ayman Shoeb	Congenital heart disease-7: Pediatric Cardiac Surgery	Challenges to pediatric cardiology in Egypt.

Name	Category	Presentation
Azza El Fiky	Congenital heart disease-5: Adult Congenital Heart Disease	Limitations of Echocardiography in adult CHD
Azza Farrag	Valvular -3: Round Table Discussion: Latest ACC/AHA Guidelines on valvular heart disease	Echocardiographically mild mitral stenosis with severe symptoms
Baher Badawi	Thrombosis -2: Antithrombotic treatment in difficult clinical seminars	Laboratory Control of Antithrombotic therapy.....
Charle Boshra	My best case -2: My worst complication	Case 6
Ebtihag Hamdy	Basic science for clinicians: Biomarkers in heart failure	Myocyte injury
Eman El Sharkawy	ECHO -2: Interactive Clinical Echocardiography: ICE session	Case 3
Eman El Sharkawy	Integrated imaging -8: Cardiac MDCT the Challenge	Graft imaging
Essam Gouda	Chest physicians meet the cardiologists -1	Reflection of asthma therapy on cardiovascular system
Fathy Maklady	Valvular -2	Anticoagulation during pregnancy
Fatma Aboul Einein	Integrated imaging -6: Cardiac Imaging in EPS Lab	Fusion multimodality imaging
Fatma Aboul Einein	Integrated imaging -10: Cardiac CT cases	Case 1
Fatma Aboul Einein	Clinical seminar	Case Presentation (Team 2)
Galal El Saeid	Valvular -1: Symposium: Tough Decisions in Valve Disease	Managing mitral incompetence with significant Aortic stenosis
Galal El Saeid	Clinical seminar	Case 1 (Team 1)
Gamal Aboul Nasr	Debate in interventional cardiology-4	"Contra": Debate I: DES in specific patient and lesion subsets

Name	Category	Presentation
Gamal Samy	Debate in interventional cardiology-3: Pci versus cabg: The paradagon shift	"Contra": Debate iii: PCI for LMCA disease
Gamal Shaaban	EPS -3: Channelopathies	QT syndrome
Gamila Mohamed Nasr	ECHO -1: Interactive Clinical Echocardiography: ICE session	Case 3
Ghada El Shahed	Congenital Heart Disease-9: The Forum	Interventional pediatric cardiology realistic goals in Egypt
Hala El Marsafawy	Congenital Heart Disease-3: Pediatric Cardiac Interventions	PDA stenting in complex congenital hearts
Hala Hamza	Congenital Heart Disease-8: Up to the Minute	Recommendations for exercise testing in children
Hamdy Soliman	Endovascular -2	Indication for intervention in peripheral arterial disease
Hany Abdel Razek	Hypertension -5: Endocrine Hypertension	Natural history and management of pheochromocytoma
Hany Adel	Congenital Heart Disease-8: Up to the Minute	Post-operative evaluation
Hany Ragy	Debate in interventional cardiology-4	"Contra": Debate II: DES VS DES: Are there meaningful differences
Hassan Khaled	EPS -5	"Pro": Debate I: RV pacing has deleterious effects on lv function
Hazem El Guindy	Endovascular -3: Neurovascular Carotid Session	Acute stroke intervention (date, indication, technique)
Hazem Khamis	Ischemic heart disease-4: The dark side of reperfusion	Strategies to prevent reperfusion injury
Hazem Warda	My best case -2: My worst complication	Case 1

Name	Category	Presentation
Heba Attia	Congenital heart disease-5: Adult Congenital Heart Disease	The burden of Pregnancy in patients with CHD
Helmy Bakr	Hypertension -2: Controversies in Hypertension	"Pro": Debate I: Hyperaldosteronism, should we check on it in all hypertensive patients
Hesham Aboul Einein	Special topics-1: Big ticket topics	New directions in hypertension management: Upsetting the guidelines
Hesham Boshra	My best case -2: My worst complication	Case 4
Hesham El Ashmawy	Ischemic heart disease-3	There still a role for facilitated PCI
Hesham Shawky	Congenital heart disease-7: Pediatric Cardiac Surgery	Mitral valve repair and predictors of outcome.
Hossam Kandil	Chest physicians meet the cardiologists -2	Cardiovascular profile of sleep apnea
Hossam Mansour	Endovascular -3: Neurovascular carotid session	Indication for carotid revascularization
Hussein Heshmat	Valvular -1: Symposium: Tough Decisions in Valve Disease	Neuroimaging in infective endocarditis
Hussein Rizk	CME Session: Management of atrial fibrillation: Case studies	Case 1
Ibrahim El Ibrashy	Atherosclerosis-2	What is next to the prevention of regression of atherosclerosis?
Ihab Attia	Debate in interventional cardiology-4	Debate III: Duration of dual antiplatelet therapy after DES: "Position statement: I recommend a limited course (< 1 year) DAT in most patients after DES"
Kamal Mahmoud	Hypertension– 3: Renin – Angiotensin – Aldosterone System: Past, Present & Future	Renin – angiotensin system revisited
Karim Said	Valvular -2	Severe mitral incompetence with low ejection fraction

Name	Category	Presentation
Khairy Abdel Dayem	Ischemic heart disease-2: Chest pain in the emergency room: challenges & solutions	Clinical assessment electrocardiogram
Khaled Shoukry	My best case -1: My worst complication	Case 6
Khaled Sorour	Valvular -1: Symposium: Tough Decisions in Valve Disease	Measuring lesion severity in presence of myocardial dysfunction
Khalifa Mahmoud	Atherosclerosis -1	Combination therapy in dyslipidemia management: Immune system in atherosclerosis
M. Ayman Abdel Hay	Clinical seminar	Case Presentation (Team 2)
M. Ayman Abdel Hay	ECHO -2: Interactive Clinical Echocardiography: ICE session	Case 5
M. Ayman Abdel Hay	Integrated imaging -2: Noninvasive Imaging and Risk stratification for CAD	Doing fine with Echocardiography
M. Wafaei Aboul Einein	Atherosclerosis-2	New treatment modalities for vulnerable plaque
Magdy Abdel Hamid	Hypertension -4: The High Risk Hypertensive Patient	The high risk hypertensive patient: are we doing all what we can?
Magdy Aboul Kheir	Congenital Heart Disease-8: Up to the Minute	Diagnosis & Management of RF/RHD: An Evidence Based Review
Magdy El Khadem	My best case -1: My worst complication	Case 2
Magdy El Masry	Hypertension -4: The High Risk Hypertensive Patient	Treatment of the hypertensive patient with the metabolic syndrome
Magdy Ghareeb	Endovascular -3: Neurovascular Carotid Session	In depth analysis of data supply: "Carotid artery stenting"
Magdy Rashwan	Integrated imaging -8: Cardiac MDCT the Challenge	Plaque characterization

Name	Category	Presentation
Magdy Rashwan	Integrated imaging -10: Cardiac CT cases	Case 2
Maged Ramsis	My best case -2: My worst complication	Case 5
Maha El Sayed	Congenital heart disease-4: Prenatal and Fetal Cardiology	Genetics and prenatal counseling
Mahmoud Hassanein	Chest physicians meet the cardiologists -1	New guidelines in acute pulmonary embolism
Mahmoud Hassanein	Clinical seminar	Case 2 (Team 2)
Mahmoud Hassanein	Hypertension -1: Controversies in Hypertension	"Pro": Debate I: Should we give antiplatelet drugs in all hypertensives?
Mahmoud Hassanein	Clinical seminar	Case Presentation (Team 2)
Maiy H. El-Sayed	Congenital heart disease-6: Imaging in Pediatric Cardiology	Live 3D Echo in Congenital Heart Disease
Medhat El Ashmawy	Heart failure -3	Anemia and morbidity in heart failure patients
Mervat Aboul Maaty	CME session: Management of atrial fibrillation: Case studies	Case 2
Mervat Aboul Maaty	EPS -5	"Contra": Debate II: Post mi patients with depressed lv function and runs of non sustained svt should receive an icd
Moataz Shebl	Clinical seminar	Case Presentation (Team 2)
Mohamed Abdel Ghany	Special topics -2: Big ticket topics	Hemoxygenas- I in CVD
Mohamed Ashraf	My best case -2: My worst complication	Case 2

Name	Category	Presentation
Mohamed Awad Taher	Endovascular -4	New & emerging technologies for endovascular therapy of PAD
Mohamed El Fiky	Debate in interventional cardiology-3: PCI versus cabg: the paradagon shift	"Contra": Debate IV: PCI FOR MULTIVESSEL CAD
Mohamed El Noomany	ECHO -2: Interactive Clinical Echocardiography: ICE session	Case 6
Mohamed El Ramly	Valvular -3: Round Table Discussion: Latest ACC/AHA Guidelines on valvular heart disease	Asymptomatic severe regurgitant lesions
Mohamed Gamal	Hypertension – 1: Controversies in Hypertension	"Pro": Debate II: should we give statins to all hypertensives?
Mohamed Hosny	Endovascular -4	The role of surgery in lower extremity arterial disease
Mohamed Khattab	Special topics-3: Big ticket topics: The diabetologists meet the cardiologists.	Leptin resistance
Mohamed Lotfy	Debate in interventional cardiology-2: Stable anging & diabetes: challenges for interventionists	"Pro": Debate I: IT TAKES COURAGE TO DILATE AN ASYMPTOMATIC LESION
Mohamed Mandour	My best case -1: My worst complication	Case 5
Mohamed Nasr	Congenital Heart Disease-7: Pediatric Cardiac Surgery	RVOT reconstruction.
Mohamed Sadaka	Ischemic heart disease-3	Time has been over emphasized, transfer & dilate
Mohamed Seteiha	Debate in interventional cardiology-2: Stable anging & diabetes: challenges for interventionists	"Pro":Debate II: drug eluting stents in diabetics should be advised
Mohsen Ibrahim	Heart failure -2	Emerging therapies in heart failure
Mohsen Ibrahim	Atherosclerosis -3: Cardiometabolic risk: Interactive case presentation	Featured Lecture: Visceral obesity

Name	Category	Presentation
Mohsen Ibrahim	Hypertension –4: The High Risk Hypertensive Patient	KEYNOTE LECTURE: Resistant hypertension
Mona Aboul Seoud	Special topics -2: Big ticket topics	Ventricular non compation
Moustafa Nawar	EPS -4: what is new in af	Targets for AF ablation
Nabil El Kafrawy	Special topics-3: Big ticket topics: The diabetologists meet the cardiologists.	Diabetes debate: From Glitazone to the ACCORD controversy and more
Nabil Farag	Endovascular -1	The controversy of renal artery stenting
Nashwa El Hagrassy	Hypertension – 5: Endocrine Hypertension	Diagnosis and treatment of primary aldosteronism
Nasser Taha	Hypertension– 3: Renin – Angiotensin – Aldosterone System: Past, Present & Future	New players in the RAAS: AT 2 – Receptor, ACE2, Angiotensin [1-7], Mas
Nirine Okasha	Ischemic heart disease-4: The dark side of reperfusion	Imaging of no-reflow
Ola El Masry	Congenital heart disease-8: Up to the Minute	Sudden cardiac death
Omar Awwad	Atherosclerosis-2	Value of imaging in evaluation of vulnerable plaque & prevention of atherosclerosis
Omnia Nayel	Basic science for clinicians: Biomarkers in heart failure	New biomarkers and future directions
Ossama Sanad	Special topics -2: Big ticket topics	Lymphatic vascular disease
Raafat Naga	Endovascular -2	State of art, intervention for iliac, SFAS, popliteal artery disease
Raghda El Sheikh	Congenital heart disease-5: Adult Congenital Heart Disease	PFO closure: The new look

Name	Category	Presentation
Ramez Guindy	Debate in interventional cardiology-1: Major des controversy	"Pro": Debate I: DES VS BMS IN EVERY DAY CLINICAL PRACTICE
Ramzy El Mawardy	Chest physicians meet the cardiologists -1	Impact of cardiovascular drugs on lung
Ramzy El Mawardy	Atherosclerosis -3: Cardiometabolic risk: Interactive case presentation	Case 2
Rania Gaber	ECHO -1: Interactive Clinical Echocardiography: ICE session	Case 6
Raouf Mahran	Endovascular -2	Challenges for endovascular chronic total occlusion
Rashad Beshara	Endovascular -2	Infrapopliteal intervention: Adjacent medical therapies for peripheral arterial disease
Reda El Eissawy	Endovascular -1	Embolic protection in renal artery intervention
Saeid Abdel Aziz	Endovascular -2	Endovascular therapy for thoracic aortic disease
Saeid Khaled	EPS -5	"Contra": Debate I: RV pacing has deleterious effects on LV function
Saeid Shalaby	Integrated imaging -6: Cardiac Imaging in EPS Lab	Tissue Doppler imaging
Sahar El Shedoudy	Congenital Heart Disease-9: The Forum	Impact of MCT in the practice of pediatric cardiology
Sahar Hamdy	Integrated imaging -7: Imaging the Right ventricle	MDCT
Salah Naga	Integrated imaging -5: Cardiac imaging safety issues	Contrast nephropathy
Salah Shelbaya	Heart failure -1	Insulin resistance in chronic heart failure
Salah Zaher	Valvular -1: Symposium: Tough Decisions in Valve Disease	Defining rheumatic carditis

Name	Category	Presentation
Salwa Roshdy	Special topics-4: Big ticket topics	Omega -3 fatty acids. The Japanese factor
Sameh Allam	Hypertension – 5: Endocrine Hypertension	Thyroid dysfunction and hypertension
Sameh Bakhoum	Valvular -3: Round Table Discussion: Latest ACC/AHA Guidelines on valvular heart disease	Low gradient low flow aortic stenosis
Sameh Emil	Special topics-1: Big ticket topics	Cardiorenal syndrome
Sameh Salama	Special topics-1: Big ticket topics	Hybrid cardiovascular procedure
Sameh Samir Raafat	ECHO -2: Interactive Clinical Echocardiography: ICE session	Case 7
Sameh Shaheen	Thrombosis -2: Antithrombotic treatment in difficult clinical seminars	Triple therapy in patients on warfarin receiving stents
Sameh Shaheen	Atherosclerosis-3: Cardiometabolic risk: Interactive case presentation	Case 1
Sameh Thabet	My best case -2: My worst complication	Case 3
Sameh Zaghloul	ECHO -2: Interactive Clinical Echocardiography: ICE session	Case 2
Samia El Kady	ECHO -1: Interactive Clinical Echocardiography: ICE session	Case 7
Samir Abdel Kader	Thrombosis -1: Antithrombotic treatment in difficult clinical seminars	Handling antithrombotic treatment with non cardiac surgery
Samir Helmy Assaad	Heart failure -1	Diabetic retinopathy and risk of heart failure
Samir Naeim Assaad	Special topics-3: Big ticket topics: The diabetologists meet the cardiologists.	Cardiac steatosis in type II diabetes mellitus

Name	Category	Presentation
Samir Wafa	Hypertension – 2: Controversies in Hypertension	"Pro": Debate II: Elevated blood pressure should be treated aggressively in octogenarians
Sanaa Abdel Shafy	Basic science for clinicians: Biomarkers in heart failure	Extracellular – matrix remodeling and neurohormones
Sanaa Ashour	Ischemic heart disease-2: Chest pain in the emergency room: challenges & solutions	Imaging of patients with acute chest pain
Sanaa Ashour	Echo -2: Interactive Clinical Echocardiography: ICE session	Case 1
Sayed Akl	Valvular -2	Surgery of infective endocarditis, Egyptian experience
Sayed El Gizy	My best case -1: My worst complication	Case 3
Sherif El Beltagui	Debate in interventional cardiology-3: PCI versus CABG: the paradagon shift	"Pro": Debate III: PCI FOR LMCA DISEASE
Sherif El Tobgy	Clinical seminar	Case 1 (Team 1)
Sherif Mansour	ECHO -1: Interactive Clinical Echocardiography: ICE session	Case 5
Sherif Wagdy	My best case -1: My worst complication	Case 4
Soliman Ghareeb	Hypertension –4: The High Risk Hypertensive Patient	Obesity – mediated hypertension and cardiovascular risk
Sonia El Saiedy	Congenital heart disease-9: The Forum	The ultimated cath lab: Into the future
Suzan Bayoumi	Congenital heart disease-4: Prenatal and Fetal Cardiology	New methods for evaluation of fetal arrhythmias
Taher El Kady	Endovascular -3: Neurovascular Carotid Session	Detailed view of procedural aspects of carotid artery stenting

Name	Category	Presentation
Tarek Abdel Moneim	Hypertension – 2: Controversies in Hypertension	"Contra": Debate II: Elevated blood pressure should be treated aggressively in octogenarians
Tarek El Khouly	Congenital heart disease-9: The Forum	Architecting the policies in pediatric cardiology.
Tarek El Zawawy	Heart failure -3	Therapeutic strategies in heart failure
Tarek Khairy Abdel Dayem	Ischemic heart disease-3	Debating the optimal strategy for STEMI patient far away from PCI
Tarek Safwat	Chest physicians meet the cardiologists -2	Cardiovascular profile of COPD
Tarek Sallam	Endovascular -3: Neurovascular Carotid Session	In depth analysis of data supply: "Carotid endarterectomy"
Tarek Zaki	Thrombosis -2: Antithrombotic treatment in difficult clinical seminars	PCI on patients taking oral anticoagulation
Wael Abdel Aal	Congenital heart disease-6: Imaging in Pediatric Cardiology	The portable echoscope: Pocket Echo.
Wael El Naggar	Debate in interventional cardiology-4	"Pro": Debate I: DES in specific patient and lesion subsets
Wael Lotfy	Congenital heart disease-8: Up to the Minute	Cardiac pacing in children.
Wafaa El Aroussy	Hypertension – 1: Controversies in Hypertension	"Contra": Debate I: Should we give antiplatelet drugs in all hypertensives?
Yasser El Barbary	Hypertension– 3: Renin – Angiotensin – Aldosterone System: Past, Present & Future	Renin inhibitor beyond blood pressure
Yasser Gomaa	Integrated imaging -7: Imaging the Right ventricle	MRI
Yasser Gomaa	Integrated imaging -10: Cardiac CT cases	Case 3

Name	Category	Presentation
Yehia Keshk	Atherosclerosis -1	HDL: A metabolic key or a therapeutic target
Zeinab Ashour	Clinical seminar	Case 1 (Team 1)
Zeinab Ashour	Echo -2: Interactive Clinical Echocardiography: ICE session	Case 4
Zeinab Ashour	Valvular -3: Round Table Discussion: Latest ACC/AHA Guidelines on valvular heart disease	Echocardiographically moderate regurgitant lesions
